PRESS RELEASE

July 2024

Willows Ingredients partner with Pepcol Collagen to deliver fully traceable bovine collagen peptides to their customers

Pepcol is part of the Boi Santo Group, sourcing the bovine collagen directly from the hides processed, ensuring a seamless, fully traceable supply chain, and offering a consistent material supply.

The company is committed to developing sustainable and high-quality collagen peptides. Pepcol Collagen boasts a neutral taste and odour, is rapidly absorbed, aids in cellular reconstruction, contributes to the elasticity and strength of the skin, nail, and hair health, and supports connective tissues such as cartilage, joints, and tendons.

“

“Partnering with Pepcol is another significant step in our commitment to offering our customers consistently high-quality raw materials to the market. Pepcol Collagen is produced sustainably throughout the entire production cycle and the production process from hide to finish product is currently the shortest in the industry. We are delighted to partner with Pepcol and bring to our customers this high-quality bovine collagen, offering an excellent neutral taste profile, along with excellent solubility, sourced from fully traceable sources along with top quality assurance manufacturing process. Having visited their production plant and seeing the production process firsthand, in their state-of-the-art facilities they are on track to be a benchmark for the production of premium collagen peptides in the food, nutrition, health, and beauty markets” - **David Scrivens, Managing Director of Willows Ingredients**

“

Malu Capobianco, Managing Director of Pepcol

“We could not be happier with our partnership with Willows Ingredients to distribute Pepcol Collagen - Both of our companies are dedicated to providing top-notch solutions that not only meet the needs of our customers but also contribute to a more sustainable future. Pepcol's high-quality and sustainable collagen peptides reflect our commitment to delivering excellence to the market. We look forward to the exciting opportunities this partnership will bring and the positive impact we can achieve together.”
