INGREDIENTS

What is Selen 9 Plus®?

Selen 9 Plus® is a premium, food-grade blend of **L-Selenomethionine** and **Dicalcium Phosphate Anhydrous**. Formulated for **optimal bioavailability**, it is ideal for use in dietary supplements, functional foods, and beverages.

Why Selenium?

- **Essential Trace Mineral** – Plays a key role in metabolism and overall health.
- **Supports Vital Functions** – Contributes to thyroid function, immune defense, and cardiovascular health.
- **High Bioavailability** – L-Selenomethionine is well-absorbed compared to inorganic selenium sources.

“Selenium is scientifically recognised for its role in supporting key bodily functions, including immune health and thyroid activity.”
